

Seven new employees at Catella's Nordic Corporate Finance

Catella is enhancing its Nordic property advisory services with seven new commercial project managers and analysts at its offices in Stockholm, Gothenburg and Malmö.

"We are strengthening our Corporate Finance activities with new employees in commercial roles in order to address increasing demand for both advisory services related to capital markets and transaction advisory services. The transaction market is as strong as last year, and we are seeing a large number of initiatives in the capital markets. In addition, there is substantial interest from international investors, both in Sweden and around the Nordics. Our ambition is to make further recruitments in the autumn," says Jesper Bo Hansen, head of Catella's Corporate Finance operations in the Nordics.

Carl Wingmark and Magnus Lange have been signed to the operations in Stockholm, and will both work in senior commercial roles. Carl has nearly 15 years of experience in property transactions and advisory services, and joins us from PwC, where he has held several senior roles in PwC's property advisory services. Magnus has more than 20 years of experience in property transactions with both national and international investors, and joins us from a role as head of Swedish operations at Cushman & Wakefield.

Additionally, Gustaf Kullenberg, formerly at Nordea Corporate Finance, and Marco Nilsson, Cass Business School in London, have been recruited as analysts in Stockholm. Jesper Greitz, PhD in physics, bolsters Catella's research department.

Erik Sveder, a new graduate with a specialisation in finance, joined us in August as an analyst at Catella's Gothenburg office, and Filip Hansson, a new graduate in land surveying with a specialisation in property finance, has been hired as an analyst in Malmö.

Corporate Finance at Catella provides transaction advisory services for sales and acquisitions to national and international investors in Europe, with a focus on complex transactions. Catella also provides market analysis and strategic consulting as well as advisory services relating to financing for companies in the property sector.
